Follow along by downloading this stunning premium 3D PowerPoint to follow the tutorial. Let's get started: 1. Add Your Data Data in a 3D PowerPoint can come in many forms: numbers, words, and more. To start adding it, select any block of text on your slide by highlighting it. Customize a premium 3D PowerPoint quickly. Then, you can simply start typing. This makes any 3D object a tool to help deliver your message. 2. Build Color Contrast Color is a great way to add contrast and call out individual data points. To apply an effect like this, click on a section of your 3D slide. With a premium 3D PowerPoint PPT, adding color contrast is easy. From the Shape Format menu, choose from the available options. Click to apply. 3. Remove Unwanted Content A 3D shapes for PowerPoint free download won't include the variety of a premium template. But keep in mind, you don't have to use every object on every slide! Create clear and concise 3D slides in seconds with a premium PPT. To remove an unwanted object, click once to select it, then press Delete on your keyboard. 4. Realign Text Removing objects from a 3D PowerPoint might alter the spacing of your content. To keep things aligned, you can click and drag any object around a slide. Align content on a premium 3D PowerPoint displays helpful grid lines that keep objects in line with each other. Explore your options: unwanted changes can be reversed by clicking Edit > Undo. 5. Add Text Effects Changing text can help your 3D PowerPoint shine. Plus, it's easy to do. Begin by highlighting some text. Then find the Font section of the Home tab. Customized text brings new style to your premium 3D PowerPoint. There, you'll see dropdowns for highlights, font styles, and font sizes. Plus, you can change text color, along with text effects like bolds and italics. 5 Tips to Make Great 3D Presentation for 2022 Want to create better 3D Microsoft PowerPoint template on the next level: 1. Pick a Perfect Template (Edit the Content) 3D Elements V2, a premium professionally designed PowerPoint template on Envato Elements The easiest way of going about creating 3D presentations is to leave the work to the experts. Premium 3D PowerPoint templates give you a head start and save time. If you want to convert data to visuals with 3D graphics, the most crucial part is to pick the right 3D graphic. It should match your data. So, it's worth spending a bit more time on this and browsing through as many pre-built 3D Microsoft PowerPoint templates as you can. Pick the best one for your requirements. Don't settle as it'll affect your final product. 2. Go for Contrast to not only draw your audience in, but also to guide their focus as you present. This is ies. Contrast can be created using colors, textures, sizes, and shapes. Learn more about the principles of Design 3. Mix It Up Black White Project Vol. 3 PowerPoint, a premium template with a mix of images and grap presentation of only bar charts on every slide. Your audience will get bored. To fight boredom, present data in a variety of ways. Mix it up between the infographic elements you're using. For example, use pie charts, bar graphs, line graphs, funnels, and others. A simple rule is: Don't use the same format more than twice in a presentation. Add other non-infographic visual elements like photos, images, or videos. These bring variety to 3D PowerPoint templates. Also, your audience won't feel like your presentation is data-heavy. 4. Use Animations Wisely If you find yourself with complex them. Introduce each section of the infographic separately. It's easier for your audience to follow 3D PowerPoint templates with animation to your 3D PowerPoint Templates with animation to your 3D PowerPoint templates with animation to your 3D PowerPoint Templates. How to Quickly Add Good Animations to Your PowerPoint Templates with animation to your 3D PowerPoint Templates. a premium PowerPoint template that's highly readable. As you use 3D infographics to convert data to more visually appealing graphics on a slide makes it messy. Keep your 3D slides clean, minimalistic, and simple. That makes the slides with 3D infographics easier to read and more visually appealing.
