Taking a test can be a painful experience. Not knowing an answer or feeling unprepared can cause enormous amounts of anxiety. There's a saying that if one doesn't know the answer to a question, just take a guess. Well, it turns out there's a better option: write down something hilarious. There's nothing better in this world than funny test answers. Of course, a funny answer is probably the wrong one. Thousands of people each year take tests ranging from young kids to college students. Each group has a different sense of humor and gets all kinds of laughs. For instance, a funny kid might give a hilarious answer because they're being honest. On the other hand, teenagers like to be smart alecks with their clever answers. Sometimes, the person is writing a genuine answer that happens to be a hilarious mistake. Then there are the college students who buckle under the pressure and use humor to deal with the stress. One way or the other, they're funny test answers. 1. This Runt of the Web Undoubtedly, "This" is one of the funniest test answers in history. The teacher even agrees that the clever answer is the right answer. Well, it turns out taking a risk does pay off. There's really no bigger risk a person can take on a test. 2. He Is a Big Nerd Student Hut There's a good chance this student got the wrong answer. Regardless, it's a hilarious test answer that's good for a laugh. The student might be a smart aleck, but they have a point. 3. Find X Student Hut Someone got a little clever when answering this test questions. To be fair, they have done so correctly, although it's probably not what the teacher had in mind. 4. Science of the Living BoredPanda It's great when a student gives a funny exam answer but still manages to make a point. They could have written any silly word if they just wanted to get a laugh. Instead, they give an honest and mature answer that's still funny. In this case, the teacher agrees with the student that racism is a suitable test answer. 5. Bob Has Diabetes @cybermage/Reddit High school students frequently give funny test answers with a bit of creativity. In this math question, the teacher wants to know how many chocolate bars Bob has left. However, the student is more concerned with Bob's health. Rarely is a funny test answer both so wrong and right simultaneously. The teacher doesn't seem to appreciate the humor in this one either. Maybe they need a little love in their life. 7. Mariah Carey Prima Initially, it appeared there would never be a situation where "Mariah Carey" would ever be the correct answer on a test. However, the answer makes perfect sense. There's really no other choice other than Mariah. Hopefully, the teacher gave the student bonus marks. 8. Expand the Problem SheKnows Nothing brings down a kid's day more than a math test. Math is a challenging subject regardless of age, so it's always essential to have a sense of humor. Here, Peter literally expanded the math problem instead of solving it. Even the teacher agrees that this is one of the funniest test answers. 9. Never Hit Dogs BoredPanda Despite being a funny test answer, the student makes a great point. Kids might say the darndest things, but they also know right from wrong. This little kid is absolutely correct that nobody should hit dogs. It's never the correct answer. The best part is they write in the answer "Pet." 10. Darth Vader Ruins Everything The Funny Some students might give one or two funny test answers at the most. However, this student went all out and gave several hilarious answers to serious questions. Some of the answers are silly, and some make a great point. The last one is very accurate. Darth Vader always ruins the fun and games. We're not sure if we feel worse for Rodney or Mom! Have a test answer that left you giggling? Tag @teachstarter_us on Instagram so we can share with the class! Find out our teacher team's favorite ways to help kids feel calm on testing days! You probably still remember the horror of taking a test at school. All quivering and trembling you sat there and either scribbled the answers as fast as you could or just stared blankly at the letters-turned-hieroglyphs understanding nothing. If it were such a case, you would probably leave the page all blank or, being a good kid that you were, tried to come up with a plausible answer for a question which subjects you couldn't understand at all. The smart kids in the list below fall in neither of the categories. These bright pupils came up with the funniest test answers harnessing the powers of puns and their creativity. Reasons for choosing to answer the questions this way are unknown, but we have a strong feeling, that the hard questions brought out some A-class smartasses out. The tricky question, though, is if a kid answers to a problem on an incorrect but smart manner, should they be credited or penalized for it? Below, you can find 30 brainy and funny test answers that will make you wonder what's better - the correct or the apt solution. Naturally, the best-case scenario would be that one's students would understand all of the material they're being tested on and answer the questions correctly. But what about the argument that a strict educational environment can stifle creativity and intellectual development? For better or for worse, these test-takers either chose to create a smart and funny test answer or, when they failed to come up with the right solution for a weird question they did not understand, came up with a creative one. Should all kids be penalized for thinking outside of the box and coming up with innovative solutions to problems? Now don't get us wrong - not all of these answers raise this excellent question. Some are just hilarious fails. Take a look at our compilation of funny kid test answers below!
