Learn More about mailing your tax returns With free Daily Digest emails, you can see previews of letter-sized mail and track packages on the go. For more information, see the developer's privacy policy. • Request Hold Mail Service while you're away, and we'll keep your mail at your local Post Office™ for you to pick up or be delivered by your carrier when you return. • Scan the barcode on shipping labels with your device's camera (Note: this function is not available on iPad 1 and iPod Touch models without rear-facing cameras). Accurate: Aggregated from official sources and precisely geocoded to latitude and longitude. If you want to use the data internally, you must link back to this page from your firm's website on a page that can be easily found though links on the root domain. Yes, all latitude and longitude coordinates for ZCTAs (and geographic relationships) are now based on ZCTA shapes from the 2020 Census. The feature that allows you to preview all incoming mail is a game-changer, providing a sense of control and security. Why do other databases contain more zip codes? Informed delivery has truly made my life simpler, ensuring I stay informed and in control of my mail. Highly recommended for anyone looking to enhance their Postal experience! The developer, United States Postal Service, indicated that the app's privacy practices may include handling of data as described below. Choose retail or online pricing, add any extra services you need, and view the total, too. • Find USPS® Locations when you need to get to a Post Office™, Self-Service Kiosk (APC®) or collection box with an easy-to-filter locator. No. Some zip codes are for PO boxes only, unique to an organization, or used by the military. If there are any changes, we will release a new version. The Basic (free) database will meet many users needs. What's convenient for delivery purposes (e.g. delivering on one side of the street except for large businesses) doesn't always lend itself to mapping or statistics. How come some demographic variables are blank (empty strings) for some zip codes? Such zip codes are not areas and therefore are not represented by ZCTAs. When possible, our database uses parent zcta to let you know if a zip code resides within an established ZCTA. This database was aggregated from authoritative sources and carefully processed by SimpleMaps. US ZIP codes were created by the USPS for mail delivery. It's been built from the ground up using authoritative sources including the U.S. Postal Service™, U.S. Census Bureau, National Weather Service, American Community Survey, and the IRS. My regular neighborhood mail carrier is familiar with many of the people on her route and makes sure that delivered packages are either safety locked in the neighborhood package mailbox or brought up to my front door entrance and placed in a location not visible from the street. The download button will be available on the purchase receipt page. The app recognizes the shipment and stores the label number, so you can stay on top of delivery status.Link to Informed Delivery to track packages and digitally preview your household's incoming mail arriving soon; view grayscale images of the exterior, address side of letter-sized mailpieces. How recent are the demographic variables such as income, household median? Why don't latitude and longitude coordinates exist for some zip codes? Are all zip codes ZCTAs (Zip Code Tabulation Areas)? Up-to-date: Data updated as of January 16, 2025. We've used GIS software to calculate the centroid for every ZIP code categorized as a ZCTA. The USPS Mobile app uses your device's GPS to show your closest options on a map, along with their Regular Hours, Special Hours and Last Collection Times, and provides mapped results with driving, walking, or transit directions. Learn More about Small Business Solutions Get a PO Box to keep all your mail secure at a Post Office™ facility. As the USPS often serves as the “last mile” carrier for the other package delivery companies, this is shown on the USPS tracking information. We've been developing and selling interactive maps to Fortune 500 companies and prominent international organizations for over 14 years. The U.S. Postal Service and their employees are very dependable and deliver my mail and packages with professionalism and reliability. One standout feature is the ability to report missing mail directly through the app. Has your database been updated with results from the 2020 Census? I don't know why anyone would bother using this app, and frankly to me this app is a waste of time and resources! An app should access the various functions directly through their own systems, not via a webpage! The USPS informed delivery dashboard has overlapping elements which prevent you from seeing what it's supposed to show you, the webpage does that so I got the app hoping that'd work right but of course it doesn't because it's literally the exact same thing since the app ONLY opens a browser window and takes you to the USPS website. Am I allowed to redistribute the database if I purchase a paid license? A centroid is the average position of all of the points in a shape. Check them out. This includes items sent overseas. This app lets me determine the best prices and options for shipping items. Some zip codes, such as those used by the military, do not represent a discrete point or a ZCTA area. No. You are not allowed to sell the database or make it publicly available. This app just opens the USPS website within the app, users are better off just going directly to the USPS website through their preferred browser. I absolutely love informed Delivery! It's an incredibly helpful and handy app that revolutionizes the way you interact with your mail. Useful fields: From latitude and longitude to household income.
