Is the game Rival Stars Horse Racing really worth \$40? Given that a similar version can be played for free on mobile devices, the extra features offered by the desktop edition seem like a significant investment. The author had added the game to their wishlist over a year ago, waiting for it to go on sale at 50% off or lower, but even then, they wouldn't consider paying full price. Instead, they'd be willing to pay \$20 for it. Despite numerous opportunities for discounts, the game remains unsold. The author has found better deals on other games that offer significant value for their original price. However, this doesn't justify the high cost of Rival Stars Horse Racing, especially when a similar experience can be had for free or through emulation. Other instances of gaming can lead to leveling up faster and playing more. Using BlueStacks Script, you can automate repeated tasks by writing a set of commands and assigning it to any key. Download and install BlueStacks on your PC or Mac, then sign in to Google Play Store for access to Rival Stars Horse Racing. To start playing, search for the game in the top right corner's search bar, click on its icon to install, and complete the sign-in process. Once installed, you can find the game on your home screen and begin playing immediately. BlueStacks 5 is a faster app player that allows any PC to run heavy games easily without overheating issues. It also prevents lagging and performance problems, making it ideal for long gaming sessions. To experience improved performance, download Rival Stars Horse Racing with BlueStacks 5 on a PC with at least 4GB of RAM. This version offers faster app-launch times and boot speeds compared to its predecessors. With this feature, you can leave your game running in the background or while away without experiencing any issues. BlueStacks comes with unique features such as Eco mode, Multi-Instance sync, Real-time translation, re-rolling, and more, which work together to provide an enhanced gaming experience on PCs. You can also customize your game controls by scripting them out, giving you full control over the coordination and movements in the game. To play Rival Stars Horse Racing on Windows PC or Mac, follow these simple steps: download BlueStacks, install it, log in to Google Play Store, launch the game, and start playing. Rival Stars Horse Racing: Desktop Edition is set to launch globally on Steam on June 25th, according to New Zealand Time. A key difference between this version and its mobile counterpart lies in their exclusive features. While both versions share some commonalities like Foals, Caretakers, and story mode, the desktop edition offers more premium features such as the Horse Creator, Betting Party, and Live Multiplayer. In contrast, the mobile game includes live events. Players can enjoy Rival Stars Horse Racing: Desktop Edition with a variety of controllers supported, including Xbox 360, Xbox One, and Playstation 4 DualShock controllers. However, additional features won't be shared between the desktop and mobile editions, as they have been redesigned and balanced from scratch for the premium title. The game's developer, PikPok, will continue to support both versions, making decisions about future updates, content, and game features post-release. The release price of Rival Stars Horse Racing: Desktop Edition is set at US\$40. Unfortunately, there won't be crossplay between the mobile and desktop versions; however, PC and Mac players can compete against each other in multiplayer races. In terms of technical specifications, the minimum requirements include a 64-bit processor and operating system (Windows 7 or later), 4 GB RAM, Intel HD 4000 graphics, and a broadband internet connection. The recommended specs are more demanding, requiring Windows 10, an NVIDIA GeForce GTX 1060 or AMD Radeon RX 480 with 3GB VRAM, and 8 GB RAM. For any issues or concerns, players can contact PikPok's Customer Support team via email at Support@PikPok.com or through the in-game "Contact Us" button.
